Erratum.

A few copies of this issue were struck off before an error was noticed in the first article on the editorial page, stating that our assessable property in 1901 was \$175. It should have read \$175,000.

C. P. R. Excursion.

The Canadian Pacific Railway announce an excursion rate of single fare plus \$2.00 for the round trip to Vancouver and Victoria on sale Aug 16 to 18 inclusive. Tickets will have a going transit limit of twenty days, final limit sixty days, stopovers to be allowed within going and returning limits.

Rival to Banff Discovered.

Red Deer, Alta., Aug. 5.—Another discovery of importance has been made in the wonderful west. Dr. Grant, of Red Deer is the fortunate man. The energetic doctor hearing some time ago rumors of a wonderful spring of hot water, known only to the Indians possessing valuable properties and situate some hundred miles northwest of Edmonton, determined some weeks back to go on a tour of discovery and if he found the spring to be of value, to secure it by all legal means. Reaching Edmonton the doctor bought horses and a suitable outfit for a long, lonely, and difficult trip into the unknown. He got away from the capital city all right and obtained the Indian who would act as guide. After some days' travel in the wilderness the doctor discovered that they were pursued or dogged by another party, and before long it was found that there would be the most determined attempt made to out the man of medicine out. Evidently some persons had found out about the Red Deer man's object, and now began one of the most daring and desperate races for possession ever recorded even by writers of western mining life and adventure. Dr. Grant finding out that he was hotly pursued, resorted to all the ruses his wits and experience could give him. Baggage was first thrown away; later food and scientific instruments were cast behind, and then the horses were left one by one until they were left with but one apiece, and still the feverish race never slackened.

The trail was rough. The trail was small and very dangerous, winding away into the wilds of the mighty Rockies. Rocks of enormous bulk, fallen trees of great proportions blocked the path, but everything had to be surmounted and at quick time too. The determined and indefatigable doctor, led by his quick witted and experienced son of the prairie and mountain, finally resorted to the dangerous trick of attempting to shorten the distance

by cutting across country and thus heading off their competitors.

This proved to be desperate work and it is a miracle how Dr. Grant and his faithful Indian, escaped to tell the tale. Sometimes down almost perpendicular precipices, over frightful entanglements of fallen logs and branches through deep, cold waters in dark canyons, taking leaps which might mean instant death, not pausing a moment, but onward and upward the struggle continued. Finally the doctor's horse gave out and mounting the only remaining pony of the Indian, who sometimes ran and jumped on foot, still they struggled on.

The Discovery.

The scenery was now wild beyond description, towering crags dark forbidding canyons, rustling waters and profuse undergrowth. Soon the alert doctor detected a smell of sulphur in the air and reasoning that the spring must be near gave the Indian instructions as to the proper staking out of the land should the spring be found. He then decided to let the Indian go on and make the necessary arrangements while he drew off the pursuers in the opposite direction. After allowing sufficient time to elapse to enable the Indian to stake the claim the doctor coolly told his competitors that they were too far ahead and that the sulphur spring was by this staked and secured. This fountain of healing waters destined when the G. T. R. is opened to the coast, to become one of the most famous Spas on the American continent, has a great flow of crystal like hot water much greater in volume and many degrees warmer than the well known waters of Banff, and strongly impregnated with sulphur. There can be no doubt that situated as this in the great mountains, with nature's unsurpassed grandeur on every side, it will prove a great attraction to the inhabitants of the west as well as to many from afar. —Free Press

The Late Jos. M. Smith.

On Sunday morning last the train from Calgary arriving at 11:30 a.m. conveyed the mortal remains of the late Mr. Smith who died at Maitland, Nova Scotia as reported in our late issue. The body left the latter place on Tuesday last accompanied by the bereaved widow and family, who were met in Calgary by relatives from Red Deer. The funeral arrangements were in the hands of Mr. Stone, and on the arrival of the remains they were conveyed to his undertaking parlors to await interment. Several of the leading tradesmen hoisted their flags half mast as a token of respect to the deceased.

The interment will take place on Tuesday afternoon at 2:30 and will be preceded by a short service in the Methodist Church, of which Choir deceased was a member.

Clearview.

The flag is still nailed to the mast on the school house.

Norman Michener has completed his fine new cow barn and has capped it with an up to date wind-mill.

Wilson Bros. have just had 150 acres broken by J. W. Kendrew, the most of it will be sown to winter wheat. Kendrew's traction outfit has also broken 70 acres for J. Richards and a large tract for D. McLennan which will be sown to winter wheat.

Sylvan Lake.

Almost everybody who is anybody has been out at Sylvan Lake for the week end and Red Deer has in consequence presented the appearance of a deserted village. The fishing has been exceptionally good and heavy catches have been reported. On Sunday last Mr. Baird succeeded in landing a splendid pike which scaled 12 pounds.

Intellectual Drinks.

"Tea and coffee are drugs—drugs so potent that they stimulate the brain, and the reaction from the stimulation is not perceptible; hence tea and coffee are excellent brain spurts. For a little while they do actually make us more intelligent than we naturally are. That is why they are so popular. It is why we chemists call them intellectual drinks. Alcohol, whether it be taken in the form of beer, wine or liquor, does not stimulate the brain, and therefore is not an intellectual drink, but the opposite. From the beginning alcohol stupefies the brain."

Plenty of Warning.

"Wasn't it awful the way Blue acted?"

"Still, what could women from a man with that kind of force?"

Doubtful Compliment.

"Do you think he will ever be a writer?"

"Well, he has an ear plenty enough to hold a pencil."

Not Lawyers Dressed Heavy.

"Many persons are aware of the fact that lawyers are not dressed heavily."

to one of his lawyers for the go-
pression which he made before
Armstrong Insurance committee
Hyde's sensible appearance before

"Tarry" Gould's Long Cruise.

"Tarry" Gould was a well-known character in and around Danvers years ago, but very few knew what gave him the nickname of "Tarry." He was an old-time fond of the river, and it seems he enjoyed when a young man. It appears he thought he was tired living alone, so he went to Danversport and shipped on a steamboat bound for Philadelphia. He used to say, in telling his story: "I did expect to enjoy the trip so much that I would have left from the start and started down river. When we got to Beverly (in Maine or so from the wharf) I made up my mind to go ashore and see some of it, and as we passed through the draw I climbed to the bridge and started for home, and, if you will believe me, I did not get down until about midnight. That night until they threw water on the

committee did more than anything to dissipate the popular prejudice as to his eccentricities. This lawless man should wear white on the stage, made the young man discard his tawdry raiment. He was thought, by brushing his hair down with a comb, pompadour and ordered him to do it, simple looking suit of cloth. The farthingale was discarded, and wherever they got the ideas of extravagant pictures they made a young insurance man.

Why go limping and wincing your corns when a 25 cent boot is offered? Do not let the doctor bother you. Give it a trial and you will not regret it.

"Father," said the small boy, is a pestisail!"

"A pestisail, my son, is a man when the home wine turns sour, and the home water's larger than a jugster Star.

Sunlight Soap is better than snails, but is best when used straightway. See how Sunlight and Ivory Detergers.

Only Reds is a Pompadour

outside of my bedroom windows to make it seem I was aboard ship."

Borras From the Sea.

"There is often found at sea a life belt, or a cork life preserver floating on the water that bears the name of the vessel to which it belonged," said a veteran sea captain. "As soon as the cork life preserver is once a great amount of speculation on the part of those interested in the ship as to whether the vessel is safe or not. The cork life preserver is always overdue. In most instances the preserver has been washed from the deck by a wave or has fallen overboard, and the vessel is without foundation. I remember an instance in which my boat broke a crank shaft. We were eleven days overdue, and we were in the Gulf of Mexico. It had slipped away from fastenings. It had slipped away from fastenings."

on the deck was wrenched overboard and picked up by a faster liner. I have sometimes thought it would be a good thing if these minor articles were not marked."

South Sea Island Customs.

When a south sea island mother wishes to chastise her child she seldom resorts to slapping, and slippers, of course, she has none. Instead of using the familiar cane she takes a long rope among civilized mothers she pulls the child's hair or bites some part of the body, generally the fleshy part of the arm. In wandering about the village one may see a mother having one of her bodice scars produced by wounds inflicted by their mothers' teeth. When a mother wishes to express her child she softly draws the child's ear to her eyebrow or cheek or gently seizes its cheek between her teeth. The rubbing

of noses is also a mark of affection among the Kingbirds of the Islands, as it is among the Monks of New Zealand.

Maud and Maunder.

Neither maud nor basket nor maunder, to whistle or grumble, is obsolete. Both are still in common use in South Notts and Leicestershire, at the rate. The former is used only, however, of a particular kind of basket, used for carrying butter to market. The basket is nearly square in shape and has a lid opening from the middle part, where the handle is, and it is called the "butter maund" (maunder). Maunder is usually heard in such sentences as "What are you maundering at?" A Northampton will say, "He's a maundering fellow," and a Leicestershire whom he is speaking strings words together in a senseless sort of way somewhat akin to the maunding—London Notes and Queries.

Glover As a Solling Crop.

Glover can be used the season through as a solling crop for dairy cattle. Many farmers sow it in the autumn, or early in the spring, in the orchard. If this is handy to the cow barn it is but a small task to feed some clover to the cows at least once a day.

TUESDAY, AUGUST 14th, 1906.

RED DEER'S PROGRESS.

The assessed value of Red Deer has advanced by leaps and bounds until it has reached the million dollar mark.

This should be the turning point for better things to come and will give the greatest satisfaction to those who have helped in the up-building of the town.

There has been no boom, no wild kite flying nor waste of superfluous energy but a steady growth since 1901 when the assessment was \$175. Last year the assessed property was valued at \$880,000.

As an industrial and residential town, Red Deer is not surpassed in the province, and a visit from manufacturers is only necessary to see at a glance the splendid power of the Red Deer river at our door going to waste and only waiting to be harnessed to make the wheels of numerous industries hum in our midst.

TRYING TO HOLD US DOWN.

The citizens and towns of Alberta are crying out against the census taken recently by the Dominion Government and the papers demand a local census to prove that Alberta has a much larger population.

In this connection it is a pleasure to note that Red Deer as usual is in the lead, as Alderman Botterill and Bawtinheimer brought in a motion at the July council meeting calling for a census of the town.

This decision was arrived at some time before the census figures were made known, the conclusion being that said figures would probably be unsatisfactory. Many citizens of the town claim they were overlooked by the enumerator, while others claim he was not given time to do his work properly.

Red Deer made a grand showing as it was having increased over 339 per cent in the five years and coming out second in the province in this respect.

The local census will be taken as soon as possible and we feel sure it will show us to have a much larger population than that given us by the Dominion census.

We await the returns with considerable interest.

Factories in the West.

"The west supplies the raw material for a great many lines of manufactured articles which are at present made in the east and shipped to the west. Western wheat is shipped east, ground, manufactured in biscuits shipped back and sold in the West. Western grain is shipped abroad where a market can be found and the western Market largely supplied by cereals manufactured in Peterborough, Ontario and Battle Creek, Michigan. Western cattle and hogs are exported alive, and the west imports canned meats and bacon in enormous quantities. Western hides are sold in eastern markets, made into boots and re-shipped West and sold to the men who raise the cattle. On each of these classes the westerner, first as producer of raw material, and second as purchaser of the finished product pays the freight to the east and back again to the West together with the profits demanded by the several traders through whose hands the article passes in its round-about course. The western manufacturer could purchase the raw material in the west at the Dominion price less the freight and could sell his products in the West at the Toronto price plus the freight. There ought to be dividends in business on that basis even supposing the cost of

production in the West were as great as the selling price in Toronto.

But there is no apparent reason to suppose that the cost of production in the West would be permanently higher than in the East. Coal is produced in Alberta in unlimited quantities cheaper than anywhere else in Canada. Nearly every western stream is capable of developing water power. The cost of producing power for factories should therefore be at a minimum. The cost of labor might be temporarily higher in the West, for the demand is brisk in all sections, but the factories once started the supply of labor would soon regulate itself and this item would be found ultimately probably no more costly than in the east.

"That while offering these advantages the West should continue long to import its manufactured goods from the east is not to be supposed. The eyes of the American capitalist are on the west, and he may be depended on to lose no time in invading a field where the opportunities for profit are so alluring. The West must have factories and will have them and that without lengthy delay. Western Canadians would prefer to see the field occupied by their own countrymen, but if through lack of faith or lack of enterprise the Canadian manufacturers do not rise to the occasion they will have themselves to thank for the lost opportunity. It is true that the west needs the factory; it is not less true that the Canadian manufacturer needs the western market, and that he can retain it only by coming to the West.

"In a few weeks the Canadian Manufacturers' association will tour the West in a body. It is to be hoped that the result of their visit will not end in sight seeing, but that they may be seized of the splendid opportunities awaiting them and of the fact that these opportunities will not wait them long."

Jungle in the Far North.

Vermilion, Aug. 8.—The body of a young man named Herbert J. Smith was brought to town this morning from Sandgrove's construction camp.

Smith died on Monday afternoon and the coroner's jury which sat on the case here to-day decided that his death was due to poisoning from the salmon. An analysis of some of the cans will be made. Other members who were also taken sick are out of danger.

Lumbermen Decide Upon Another Raise.

Nelson, Aug. 8.—In spite of repeated protests from the prairie provinces that the lumbermen of British Columbia are charging exorbitant prices for their output, the Mountain Lumbermen's association, at a meeting held here today, decided on an increase. The price of common dimension lumber will go up a dollar a thousand; there will also be a slight advance in some other lines.

From The Land of the Scots.

London, Aug. 11th.—According to the board of trade figures the immigrants who went to Canada this season up to the end of July were 19,000. From Scotland there were 7,144, England 3,887.

May was the biggest month and April next. By population Scotland sent one for every 28 England one for every 600, and Ireland one for every 1,163. Scotland sent twice as many as England and five times as many as Ireland. Emigration from Scotland has increased 100 per cent in three years.

C. P. R. Sell Timber Lands.

Victoria, B. C., Aug. 7.—It is announced that the C. P. R. have sold all the timber lands of the Esquimalt and Nanaimo railway on Vancouver island to Ottawa and Montreal capitalists at \$10 an acre. This is believed to be the biggest deal of its kind ever consummated in British Columbia.

Big Fur Shipment.

Prince Albert, Sask., Aug. 9.—The Hudson Bay Company shipped \$65,000 worth of furs from here to London to-day by the C. N. R.

A prominent medical Journal takes up the 23 cases of lives lost through taking headache powders as printed in Collier's Weekly and shows that at least 21 of them have no foundation in fact while the others resulted from taking over doses or from taking powders of some kind or quality unknown, only the wrapper being found. This will be good news for those who have been accustomed to take an occasional water for a bad headache and should allay the dread, every time they take one, that they will be wafted over Jordan.

PROVINCE OF ALBERTA

Notice to Stock Owners.

Notice is hereby given that on and after the 1st day of July, 1906 the joint office of the Recorders of Brands for the Provinces of Alberta and Saskatchewan will be situated at Medicine Hat, Alberta. All communications in connection with brands should after that date be addressed to the Recorder of Brands, Medicine Hat, Alberta. Money sent in payment of fees should be remitted by postal note, money order or express order made payable to The Recorder of Brands, Medicine Hat. If cheques are sent they must be certified by the bank on which they are drawn and the necessary exchange must be included.

Recording of Brands in both Provinces.

Persons ranging cattle in the vicinity of the inter-provincial boundary (the 4th Meridian) when applying for brands should, in order to protect themselves, also apply for a record of the same in the Province of Saskatchewan, which may be effected on payment of an additional fee of \$1.00.

Canadian Creameries. Western Items.

The twelve government cream-
eries in Alberta last year turned
out for market 925,000 lbs of but-
ter, which averaged 21.35 cents,
says the New York Herald. The
product was sold in British Colum-
bia, Yukon, China, Japan. The
government operates creameries
over the entire net profits of these
creameries to 1,200 farmers sup-
plying the milk. Fifteen private
creameries have also been estab-
lished in Alberta and these ex-
ported in 1905, 650,000 lbs. of but-
ter.

During the last year Canada
exported 35,520,705 lbs of butter
valued at \$1,010,799; cheese, 215,
376,587 lbs valued at \$22,237,540
the total valuation of the cheese,
butter, bacon and hams exported
from the Dominion in 1905 in-
cluding October, amounted to \$9,
000,000 more than all the products
of the forest (rough and manu-
factured) \$15,000,000 more than
all the grain and grain products
exported from this country during
that period. The exports of but-
ter from the United States during
1905 were valued at \$2,378,325,
while the value of the cheese ex-
ported was only \$835,934.

Escaped.

Edmonton, Aug. 9.—The first
escape from the penitentiary was
effected between 7 and 8 a.m. by
a Calgary man undergoing a
three years' sentence for forgery.
He has made good his escape.
The mounted police are scouring
the country in search of him.

It is believed that this is the
man Cuthbertson, who escaped
from Calgary police station and
shut Policeman Mackie in the cell.
He is a shrewd criminal, and evi-
dently knows his business.

New Elevators along C. N. R.

Minneapolis, Aug.—The Peavy
people are going to build eleva-
tors on the line of the Canadian
Northern. They have formed a
new company, to be known as the
British American Elevator Co.
The headquarters will be Winni-
peg and they will erect twenty
houses this year with an average
capacity of 25,000 bushels.
Work will start within ten days.

An Army of Eastern Harvesters.

St. John Aug. 8.—Thirty five
hundred Maritime province and
Newfoundland men will help har-
vest the grain crops of western
Canada.

The first number have left here
the C. P. R. harvest excursions
began yesterday.

New, Coal Beds.

Prince Albert, Aug.—Very ex-
tensive bituminous coal deposits
have been located at Lac La
Rouge, about 100 miles north of
here. Specimens brought in are
of excellent quality, being blacker
and harder than that found at
Edmonton. Lac La Rouge is al-
so a famous Indian fishing ground
and around there are great areas
of pine. Red and yellow paint
deposits are also known to exist
in that locality.

Doukhobors Will be Employed.

Winnipeg, Aug. 8.—Mr. Ponta-
poo an official in the Doukhobor
community has a big sub-con-
tract from the McDonald-McMill-
an Co. for constructing the St.
Lazarus section of the G. T. P.
line. He is engaging hundreds
of Doukhobors. Pontapoo is an
experienced railway builder from
Russia.

Battleford Herald: On Friday
F. W. Otton, a game guardian,
seized two antelope which had
been brought to town by Solomon
Wells for sale, and the latter was
fined \$50 for having them in his
possession. Subsequently Otton
sold the antelope and his right to
do so is to be tested in the courts.

Rocky Mountain Echo: The
growth of Lethbridge fair has
kept pace with the development
of the province, till now it is the
most representative exhibition of
Southern Alberta. The prize
list has been carefully revised
and generous prizes are offered
in classes. Live stock men have
always been pleased with their
treatment here. Increased stab-
ling for horses has been provided
this year. The poultry show is
always a leader. Free crops are
furnished for all birds. Expert
judges will place the awards.

Moose Jaw Signal: The Chicago
capitalists who are interesting
themselves in the local meat
packing enterprise, are now in
Winnipeg and are expected to
arrive here on Tuesday. They
will bring with them complete
plans and specifications, and will
be accompanied by an architect
familiar with the construction of
such buildings are required for
the work. In the meantime the
stock lists of the company with
prospects is in the hands of Mr.
Loree, the manager of the Bank
of Hamilton, who will supply any
information desired. \$300,000 is
the amount which it is desired to
have subscribed in this city
and district.

Regina Standard: Cattle raising
in the southern portion of
Saskatchewan is falling off and
the quality of the stock raised is
steadily increasing," said W. J.
Tudge, cattle buyer for the Re-
gina Trading Co. to the Standard
this morning. Mr. Tudge has to-
day returned from a trip through
the eastern portion of the provin-
ce and while on his rounds he
has taken in all the local fairs
in order that he might pick up
whatever fat stock was offering.
The above is the conclusion he
has come to after inspecting the
stock all over the country.

Regina Standard: "It speaks
a good deal for the financial
standing of the city that with lo-
cal improvements in hand we are
able to strike a 15 mill rate this
year," said Mayor McEa last
night in explanation of the city
budget, adding that Regina have
every reason to be proud of the
unique position which she occu-
pies among Canadian cities.

Regina Sask.—A record price
for city real estate was paid when
J. Finkenstein of Winnipeg pur-
chased the south railway street
property of the Western Ha. r
Tgrdewsh sh sh r Western
Hardware Co. for \$15,500. The
property has 27 feet frontage
which gives \$574 per ft.

Mannville, Aug. 7.—Rev. Mo-
Queen, Presbyterian minister
here was drowned this afternoon
while swimming in a lake near
the town. Deceased was a stud-
ent from Knox College, Toronto.

Wetaskiwin, Alt.—E. C. Am-
bler, a well known young man,
was drowned here while bathing
in the mill dam.

Calgary, Alt.—Twenty Italians
employed at Morley by the Can-
adian Pacific Railway Co. have
struck. Corpl. Stewart with Con-
Falkner and Such, of the mounted
Police have left for the scene of
the strike.

Lethbridge Alta.—P. N. Skow-
on put on the market 2,800 bus-
els of Alberta red wheat from 100
acres near this city. He simply
disc harrowed the land last sum-
mer and put in the seed without
plowing. It would have been a
heavier crop but was thinned by
a local shower of hail. The
heads are very long this year
with 3 to 5 rows across the head.

Hill is heading West.

E. L. Richardson assistant
secretary of the Calgary Board
of Trade, has received the fol-
lowing message from J. J. Hill,
president of the C. N. R.
"Your telegram of the 26th,
ultimo duly received. I desire to
thank you for the same. With
reference thereto, I beg to state
that our constructions of the
Pacific line of railway will start
west from Winnipeg."

Industrial Accidents

Industrial accidents occurring
to 342 workpeople in Canada dur-
ing the month of June 1906, were
reported to the Department of
Labour. Of these 108 were fatal
and 234 resulted in serious in-
juries.

Local and General

Mrs. and Miss Plaxton are vis-
iting their son and brother Dr.
Plaxton.

Miss L. Close who has been
teaching near Red Deer, has
accepted a position in Wetaskiwin
town school.

Dr. Collison was elected Grand
Conductor of the I. O. O. F. for
the ensuing year. The meeting
next year, will be in Lethbridge.

The Portland Cement Works,
Calgary were destroyed by fire
on Wednesday evening, Aug. 8th.
Loss \$125,000; insurance \$28,000.
The natural wealth of Canada
and the industry and enterprise
of our people manifest themselves
in the trade returns of the country.
Last year we exported \$255,000,000
worth of products. This is our
highest figure, and is the result,
in a large measure of the devel-
opment of the Great West. Be-
fore the West became a factor in
the life of the Dominion the sales
abroad were relatively small.—
Commercial.

Strayed.

That Ten Acre Lot

By Donald Allen

Copyright, 1904, by K. A. Whitehead

Jed Wheeler, aged forty and a bachelor, was as well liked as any person in the village of Flat. He was neighborly, kind hearted and always willing to do for others.

Jed's good qualities were in a way his enemies. He was lazy, and, added to his laziness, he had a mania for trading. He would trade horses, dogs, cats, watches, overcoat or anything else, and it so happened that the other fellow always got the best of the bargain.

He had been left quite a little fortune by his grandmother, but in the course of five years he had squandered it was left to him was a ten acre lot lying just outside the village limits. It was as fine a meadow as could be found in the county, and Jed was hanging on to it until some lightning rod man should come along and trade him a farm on top the Rocky mountains.

When he fell in love with Jim Thomas, the carpenter, had died three years before and left a level headed, economical wife behind him. She was an old schoolmate of Jed's, and had been seen almost every day for twenty-five years, and until the spirit of love bubbled up he had simply regarded her as he looked upon all other women.

He was sitting on the grocery steps one day whittling when his knife slipped and cut his finger. The Widow Thomas was just entering the store for half a dozen eggs when the accident occurred, and she pulled out her handkerchief and bound up the bleeding finger. It was only a trifle, but somehow it touched the heart of the old bachelor, and three days later he called on the widow.

"Martha," he began, "I've got tired of sloshing around alone and am going to get married."

"For the land's sake!" she exclaimed. "That is, if the woman I want will have me."

"Who is it?"

"Now, Jed, don't come around here with any of your nonsense," she said. "You are a good natured man, but you are lazy. You think you've got brains, but everybody beats you. It would drive me crazy to have such a husband."

"I could and would reform. If I had any one to peck at me I'd go to work."

"I haven't time to be pecking up a husband. It's hard to teach old dogs new tricks. Thank you for the honor, Jed, but I guess we won't do any marrying."

Jed was crushed for three days, during which time a windmill man came along and offered to trade him 5,000 cords of dressed lumber for his meadow and explained that the windmill man raised 10,000 rattlesnakes for the acre on the sandy soil and sell the oil for \$5 on a gallon to grease the feet of babies with.

If Jed had been in his normal condition he would have closed with the offer at once, but as he was in the throes of hopeless love he astonished the town by turning the windmill man down. Two days later he went back to the widow and said:

"Martha, I had a dream about Jim last night. I dreamed that I met him in front of the blacksmith shop and that we shook hands and he said he hoped I'd marry you."

"Oh, you've come about that, have you?" she asked.

"I have. I'm a miserable man. I can't get my head straight."

"Catsup? Great heavens! What all this love, and if the Mississippi river was composed of catsup tea it couldn't cure me. Martha, if you won't promise to have me I can't live a week longer."

"Nonsense. I'm busy with my ironing, and you run along."

Jed was now so broken up that everybody began to notice and comment on his head and intimated that he was not long for this sinful world. He got up every morning, however, to contrast to get out a thousand times a suburban electric line, and, hoping his might work in his favor, he paid another visit to the widow and told her of it.

"Now that you see I am going to work, can't you see me?" he asked in conclusion.

"Jed, what do you come bothering for?" she asked.

"Because I love you."

"Don't be silly. I'm making miles today and haven't time to argue."

Jed went away, determined to throw himself into the mill pond, but when he reached the bank he met a stranger who had been poking around the village for a couple of days without telling any one his business. He introduced himself and said he thought some of establishing an orphan asylum if he could find a site to suit him.

In the way he brought the talk around to Jed's meadow. The value of the land as it lay was \$100 an acre, though Jed had never had a cash offer for it.

The stranger didn't exhibit too great interest in the matter. He said he'd think the matter over and perhaps make an offer. He had no mountains in Idaho and no lakes in Europe to take him to, and he was prepared to pay cash. A day later, while still sauntering around, he met Jed and said that he could have \$1,000 for the land as soon as the deed was made out.

The former bachelor had started for the office of the village lawyer to have the deed made out when he met the Widow Thomas. She noticed his excitement and asked the cause, and when he told her she said:

"Look here, Jed, don't you take too much stock in the orphan business."

"How do you mean?"

"You're an orphan yourself, and you don't want to let any other orphan get the better of you. Can you get a horse and buggy anywhere for an hour?"

"Of course."

"Then let's drive out to your land and see what kind of a place it would make for the poor orphan."

On the way they occurred to the old subject, saying that he was on his way to drown himself when he met the stranger.

"Come, now," interrupted the widow, "this is straight business and you keep quiet."

"When the meadow, which lay along the highway, was reached the widow insisted on walking across it from north to south. The ground looked as level as a floor, but near the center was a considerable water stood there, but the earth was now dry.

"Um," said the widow as she halted and smiled.

"Do you mean that smell?"

"Yes. Ever notice it before?"

"Once or twice. Smells as if somebody had been breaking rotten eggs around here."

"Get a pole and thrust it into the ground as far as you can."

"Here's one right here, and somebody's been poking it in. What do you make of it, Martha?"

"Jed, you've asked me to marry you, she said in reply.

"I have, but you don't seem to care whether you drive me to a suicide's grave or not."

"I don't know but I'd be willing to take chances."

"As how?"

"If you'll need me this land today I promise to marry you within a month. I shall answer any question. It's yes or no right off."

"Then it's yes, by thunder!" exclaimed Jed as he reached the roadside fence.

The deed was made out before sundown and sent away to the county seat to be recorded. Next day the man who was looking for a site for the orphan asylum called on the Widow Thomas. He had scarcely mentioned the poor orphan when she laughed and said:

"Don't let your philanthropy cause you to lose a good thing. The ground you know it. It's only twenty miles to the tip of the mountain. The meadow, then it's under hundreds of acres around here. Go ahead and make any test you will and then come back with your offer."

A week later he was willing to hand over \$10,000 in cash, and when Jed Wheeler had seen the money counted under the dead man's hand he said:

"By thunder, Martha, but that was the only piece of land I had, and when a piano fell comes along and wants to trade for my piano, what am I going to say to him?"

"Refer him to your wife," she answered as she kissed him for the first time.

Here is a story of Scotch salmon told by the Dundee Advertiser:

The ship's crew had been made up in a hurry, and when they passed the bar and were beginning to get a trifle hungry it was discovered that they had no food. So the old man asked George to try his hand at the fish, and George scratched his head and rubbed his chin and said he would do his best. Next morning he consulted Jack about the matter. "Oh, it's a simple job," said Jack. "Will it, d'ye think?" said George. "No, about how much shall I cook?"

"Let's see," replied Jack. "There's four of us, and I suppose I should say a bucketful would be plenty. I don't but it will," said George and went off to the galley. He got a bucketful of fish, and when he came back he found when it began to boil it looked as if it were well. So he baled out a portion into another pot, and that also did like. He then baled out the rest into other pots until all his pots were full. Still it averted, and George became alarmed. So he put on all the gas he could get, and when the water was boiling he looked at the clock and found it was twelve. Then he went forth and looked the door and stood against the bulwarks watching it. Soon the skipper came along and looked inquiringly at the breakfast. "What man?" replied George. "I'm cooking rice, and I don't know the malt it will burst the boiler."

Origins of "Feather in His Cap."—A feather in his cap, signifying honor and distinction, arose from a custom which was common among the Syrians and perpetuated to this day among the various Semitic people of adding a new feather to the headgear for every enemy slain. In the days of chivalry the embryo knight received his accolade in a featherless condition, and then won his plumes as he had won his spurs. In a manuscript written by Richard III. in 1488 and carefully preserved in the British Museum is mentioned an ancient Hungarian custom, that of allowing no such laws and customs to stand which had not killed a Turk. The Hungarians had a law, which was in vogue to the end of the fifteenth century, to add a feather to their headgear to show a feather to the claimant could prove that he had succeeded a starving Hungarian had killed an able-bodied Turk or other Moslem. These old customs are now obsolete, but it is interesting to know that there were once such laws and customs in the ranks of nations thought to be civilized.

The Laws of England.—Lord Halsbury has undertaken the compilation of a large work to be entitled "Laws of England." His principal object is to bring together the whole law of England, and will occupy about eighteen or twenty volumes. The work is being compiled by the ex-Lord Chancellor, and the work will be published under his direction, with the co-operation of a body of lawyers.

One of His Interiors.—"He says he always tries to be polite to his inferiors and—They, where are you going?"

"Going to find him and give him a licking."

"What for?"

"I met him this morning, and he was as polite as a dancing master."

The Other Way.—"The teacher had been talking about the other way of doing things. Country Life, and, with the incubator in mind, asked if eggs could be hatched in any other way."

"Yes, sir," said an experienced person of other. "Put 'em under a duck."

HOBBY HORSE, A RELIC OF THE OLD ENGLISH MAY DAY REVELS.

Some Interesting Folk-Lore Concerning the Remnant of the Middle Ages Kept Up by the Sailors At Minehead For the First Three Days of May—How the Horse is Made and How it is Used.

A remnant of the Middle Ages is still annually kept up at Minehead by the sailors of the little port for the first three days in May. The ancient custom is known as "hobby-horse," and is supposed to be a relic of the old May day revels when the "hobby-horse" was called the "ring of the church."

Some affirm that it is a vestige of the old worship of Apollo, the God of the Sun, and that the custom is to "celebrate the warmth and gladness which the May sun brings and the dis-appearing of the cold and gloom of winter."

"Hein's 'Thoughts on the Structure of the Human Brain' and Wilson's 'The Human Brain' both mention these queer transformations, as does also Hugh Miller in his famous work, 'Testimony of the Rocks.' Mr. Miller says that the profession of the human brain is a very old one, and that the exact outlines of a serpent's thought factory. After that the changes which take place while the brain is assuming the form of a human brain, and a dingo before it becomes perfect give it a decided resemblance to the brains of fish, birds and mammiferous animals."

THE HUMAN BRAIN

Undergoes Wonderful Changes During Its Growth.

The wonderful changes which the human brain undergoes from the moment when it first appears in the embryo until it becomes the perfected laboratory of thought characteristic to the matured human being has been commented upon by several of the leading writers of the day. The physiology of these successive changes, or, rather, transformations from the lower to the higher stages, has been the subject of many papers and books, and the general shape and form of the brain of various representatives of the lower classes of animals, but appears to have the same structural constituents, at least to a certain degree. Thus it has been found that the original germ of the brain in the embryo of the human embryo has the exact outlines of a serpent's thought factory. After that the changes which take place while the brain is assuming the form of a human brain, and a dingo before it becomes perfect give it a decided resemblance to the brains of fish, birds and mammiferous animals."

"The 'Thoughts on the Structure of the Human Brain' and Wilson's 'The Human Brain' both mention these queer transformations, as does also Hugh Miller in his famous work, 'Testimony of the Rocks.' Mr. Miller says that the profession of the human brain is a very old one, and that the exact outlines of a serpent's thought factory. Apply H. Longson,
Red Deer.

The News and one of the
following papers from now to
Jan. 1st 1907 for only 50c.
Weekly Mail and Empire,
Family Herald and Weekly Star

Mr. Wm. Buchanan of Niagara
Falls, Ontario, is in town the
guest of his nephew A. H. Ilsey.
Mr. Buchanan has been taking
an extensive trip through the
States and Canada.

Rev. Father Chauvin one of the
itinerating missionary priests of
the Roman Catholic church,
making headquarters at Innisfail,
and who has been ill for some
time has been removed to Holy
Cross Hospital, Calgary, suffer-
ing from cancer of the stomach.

Mrs. Will Diamond, of Van-
couver, B. C. is visiting her old
friends at Horn Hill this week
after an absence of about ten
years. She does not know Red
Deer, she says "It has grown so."

Mr. H. Ramsay, Contractor of
Quill Lake was in town on Thurs-
day in reference to the Town
Water Works extensions, opera-
tions for the carrying out of
which will be commenced in a few
weeks.

The Red Deer Ball Team re-
turned from Edmonton on Sun-
day night, "wiser if not sadder
men, their Northern tour has not
proved a success and probably
the least said about the scores in
the two matches the better. The
glory of the team seems to have
departed and even their chief
supporters are looking tired.

A convention is to meet in Ed-
monton this week to discuss the
advisability of union on the part
of the Farmer's Association and
the Society of Equity. We are
in sympathy with the idea and
hope it may be carried out. Bet-
ter one strong united society than
two rival associations.

Miss Dahl appears to have what
few great singers since Jenny
Lind have possessed; an almost
occult personal charm, her sweet
naturalness and modesty winning
her audience completely from the
very moment that she first ap-
pears before them. As a singer,
judged critically, she is entitled
to comparison with Melba, Nord-
ica, Soubirou, or any other of
the worlds celebrated divas of the
present day.

Purdy will receive prompt atten-
tion.

SATISFACTION GUARANTEED

As her 1906-07 American tour
does not open until September,
Miss Dahl's management has ar-
ranged to send her, with her
travelling companion and pianist
Miss Gina Smith, through from
Victoria to Canmore by the C.P.R.
and Crow's Nest line returning
by main line. A few concerts
will be arranged where stops are
made, and Red Deer will be one
of the interior places favored, a
concert being given here on
Thursday, Aug. 23rd.

Miss Dahl is to be heard on her
new American tour at a concert
given at Red Deer Opera House
here on Thursday, Aug. 23rd
when she will be heard in some
of her greatest successes. She
is a young woman magnificently
endowed by nature both as to
voice and presence, and it is said
that the splendid music of Grieg
has no greater living exponent
than this, the composer's country-
woman.

The Innisfail Province says,
"Innisfail is, unfortunately, at
present without a dentist, al-
though Dr. Agnew is expected
back in a few days from his holi-
days. But teeth have a habit of
aching when no one is at hand to
give relief. A member of the
Province Staff was afflicted that
way on Monday and took a trip
to Red Deer, where he fell in with
Dr. Plaxton who attended to his
wants promptly."

Penhold.

Mrs. and Miss Fleming returned
from Banff last Tuesday.

Mrs. Charles Wilson has been
spending a short time at Calgary
Cochrane, and Banff.

Miss E. Hives, of Calgary, is
visiting her parents.

Wesley Kenning while work-
ing in his well heard a peculiar
noise and asked to be drawn up.
Just as he reached the top about a
ton of earth caved in. He
would certainly have been
killed had he remained in the
well. The well was about twenty
feet deep.

We regret to chronicle the
death of Mrs. Frank Whiteside
which sad event took place at the
Whiteside ranch out east last
week. Mrs. Whiteside was
formerly a Miss McGillivray
and was well known throughout
the Innisfail district. The body
was brought to the residence of
relatives and the funeral took
place to Innisfail Cemetery on
Sunday last. The greatest
sympathy is felt for Frank by all
his old friends in this neighbor-
hood. A family of four little
children survive their mother.

Council Meeting.

The regular monthly meeting
of the Red Deer Council was held
on Thursday evening last at eight
o'clock p.m. Present: His Wor-
ship the Mayor presiding and
Councillors Bawtinheimer, Gaetz
Stephenson, Botterill.

Mr. A. Loisele and his solici-
tor, Mr. Crawford were also pre-
sent with references to the clos-
ing of the lane at the rear of B. 12

RESOLUTIONS.

Stephenson-Botterill, that the
Fire Chief be delegated to attend
the meeting of Fire Chiefs at
Calgary, Aug. 28th to 31st, and
that the Town pay his expenses.

Carried
Botterill-Bawtinheimer, That
the applications of Best Bros. and
R. H. Brown as to erecting signs
be granted subject to the Council.

Carried
Bawtinheimer-Botterill, that
the matter of the Railway be re-
ferred to the solicitor.

Carried
Gaetz-Bawtinheimer, That the
Town Police be instructed to pre-
vent persons bathing in vicinity
of town without bathing suits.

Carried
Bawtinheimer-Stephenson, that
the bridge on Douglas St. be
proceeded with at once by days
work.

Carried
Bawtinheimer-Gaetz, that the
assignment of A. Iverson of the
scavenging to cattle and graves
be approved providing the work
be carried out satisfactorily.

Carried
Bawtinheimer-Gaetz, that the
matter of closing the lane be re-
ferred to the solicitor to take the
matter up with the C. P. R.

Carried

H. W. HOSKIN

R. F. HOARE

Binder Twine!

THE BEST TWINE THAT MONEY CAN BUY.

See it before you purchase at

H. W. Hoskin & Co.

Gaetz-Bawtinheimer, that the
report of the Public Works Com-
be referred back to the Commit-
tee with instructions to take up
the matter of the Railway Cross-
ing to the south with the Engi-
neer.

Carried
Botterill-Stephenson, that a
by-law to purchase the ground
from the Red Deer Lumber and
brick Co., for \$2250 be submitted
to the Ratepayers and a letter
published setting forth the full
particulars of the matter.

Gaetz-Bawtinheimer, That the
Solicitor be instructed to pre-
pare a By-Law to establish and
conduct a market in Red Deer.

Carried.

Botterill, Asked leave to intro-
duce a By-Law respecting the
taking of a census.

Leave Granted.
By-Law read a first, second,
and third time and finally passed
there being no amendments.

Gaetz-Bawtinheimer, That the
Mayor and Secty. Treas. be au-
thorized to hypothecate the Water
Works Debentures to the Merch-
ants Bank for the purpose of
raising sufficient money to pro-
ceed with the new construction
work.

Carried.
By-Law, read, signed, and
sealed in open Council.
Council adjourned.

At the funeral of Mr. J. M.
Smith today the church was
crowded. The hymns were—"O
God, Our Help in Ages past"
"Asleep in Jesus," and the closing
hymn being "Servant of God Well
Done." Rev. A. C. Farrell con-
ducted the service and spoke from
text "Our Father, Which Art in
Heaven," paying a high tribute
to memory of deceased at close
of his remarks especially in re-
gard to connection of deceased
with that church.

In addition to the mourners'
carriages over sixty rigs followed
the remains to the cemetery.

A Dastardly Act.

Lethbridge, Aug. 14.—A das-
tardly attempt was made yester-
day morning to destroy the resi-
dence and probably the entire
family of John Scott, a railroad
employee here, by dynamite.

The building was badly wreck-
ed by the explosion, but no one
was injured.

No motive can be advanced,
but the police have a suspect
under arrest.

Suicide at Content.

Reports come from Content
that on Monday, Aug. 6 a young
man by the name of Smith com-
mitted suicide at that place by
taking laudanum. He was 18
years of age and had a home-
stead near Content, about 60
miles east of Lacombe. Just
before committing the deed he
paid up all bills he was owing
but seemed in his usual spirits
and gave no indication of his
intention. He was well thought
and no cause is given for the
rash act.

Mr. Armstrong, who has been
staying for some time with his
son, Gordon Armstrong, con-
tractor, will leave for his home
in California on Friday.

Twine! Twine! Twine!

Everybody is, in these days, for Twine. We are not
getting them all, but we do claim we are selling to the
majority; and why? Because our Twine is giving entire
satisfaction. We know others are selling twine at a lower
price, but "grade," "length" and "quality" considered,
we are the cheapest.

Ask our opposition to guarantee the following, which
we are prepared to stand by and guarantee:
We will guarantee that the mice will not out the Twine
in the stock, as our TWINE is put through a liquid
solution that the mice or grasshoppers will not eat. We
will guarantee that our TWINE will not bunch up and
become tangled when near the end of the ball, and that the
sheafs will not break open when the bundle is discharged
from the Binder. All this we are prepared to take your
own word for, and if you can find any of the above-named
faults, WHICH ARE COMMON IN TWINE, then
we will refund you your money. What fair proposition
could you ask?

The McCormick Standard Twine is not equalled on
the market to-day, price and grade considered; and, by the
way, kindly keep in mind that Latimer & Botterill did not
raise the price of twine during the Twine Famine last year.

We have a limited quantity of Plymouth Manilla Twine
that we are selling at 15c. Leave your orders with us and
be sure to receive A1 treatment together with our positive
guarantee.

Yours truly,
LATIMER & BOTTERILL.

Latimer & Botterill,

Red Deer and Calgary.

Annual Midsummer Clearing Sale.

Only once a year can we give the people of Red Deer an opportunity to buy good
Seasonable Goods away below regular prices.

To make room for one of the largest and most up-to-date Fall Stocks ever shown
in Red Deer, we have searched our store for everything with the seal of summer on it,
and **WE ARE CLEARING THESE GOODS REGARDLESS OF COST.**

A Pile of Summer Blouses—Regular prices 75c. to \$1.75, clearing at 50c. and 75c.

Shirt Waist Suits—\$4.50 to \$6.00.

Women's Oxford Shoes, worth 1.50 and 1.75. Clearing at \$1.25 a pair.

A SNAP IN MEN'S SHIRTS—We were fortunate in securing about 200 sample
Shirts, which are selling 25 per cent below actual worth. Don't miss these bargains.

A Line of Men's Summer Suits to clear at \$5.00 each.

A CHOICE STOCK OF GROCERIES

always on hand. Just the right things for you if you are going camping.

HILL & HORN,

GENERAL MERCHANTS **RED DEER.**

Spectacle fitting is no
guesswork with us. Our
frames suit because
they are right.
